FINANCIAL SOLUTION

Platform-Based Product Solution

As one of only few manufacturers globally mastering the full-chain R&D of solar+storage systems, SKYWORTH's in house products covers:

PV MODULES
High Efficiency | High Reliability
High ROI | Low Degradation

INVERTERS
High Efficiency | IP65 / 66 Protection
Modular Design | AC and DC Surge Protection

Power Plant Life Cycle Quality Management System

With a strong presence in EPC services and one-stop product solutions, SKYWORTH photovoltaic delivers high-quality, reliable, and innovative energy solutions.

Environmental Benefits

 **990ton**
CO2 Yearly Emission Reduction

 **30ton**
SO2 Yearly Emission Reduction

 **15ton**
NOx Yearly Emission Reduction

 **317ton**
Coal Yearly Emission Reduction

O&M

SKY-WORK EPC Model

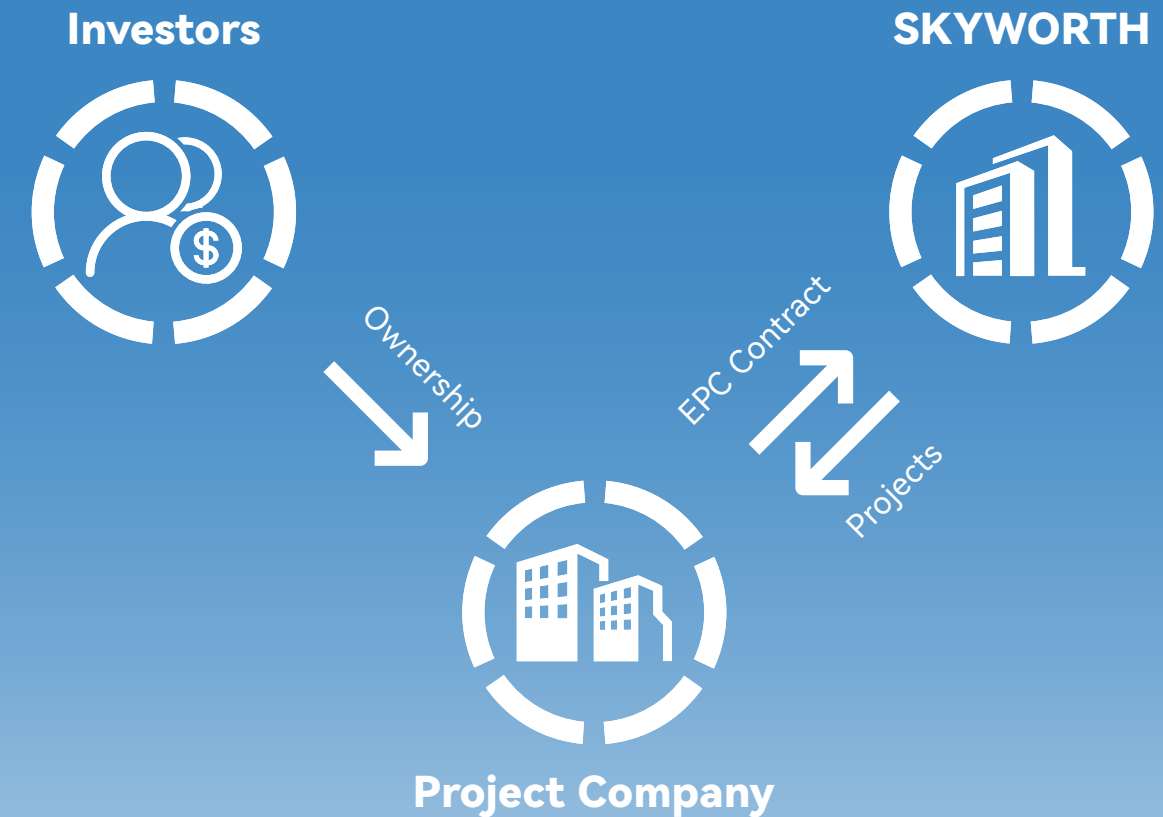

Owns full property rights to the solar plant,
enjoying exclusive high-yield returns from electricity generation.

► Local Partner

Focus on local project development to
secure channel or intermediary revenue

► SKYWORTH

Full-process Project Management

* With investors or self-investment, SKYWORTH provides user with complete EPC services

SKY-INVEST PPA Model

Enjoy discounted electricity
rates at no extra cost.

► Local Partner

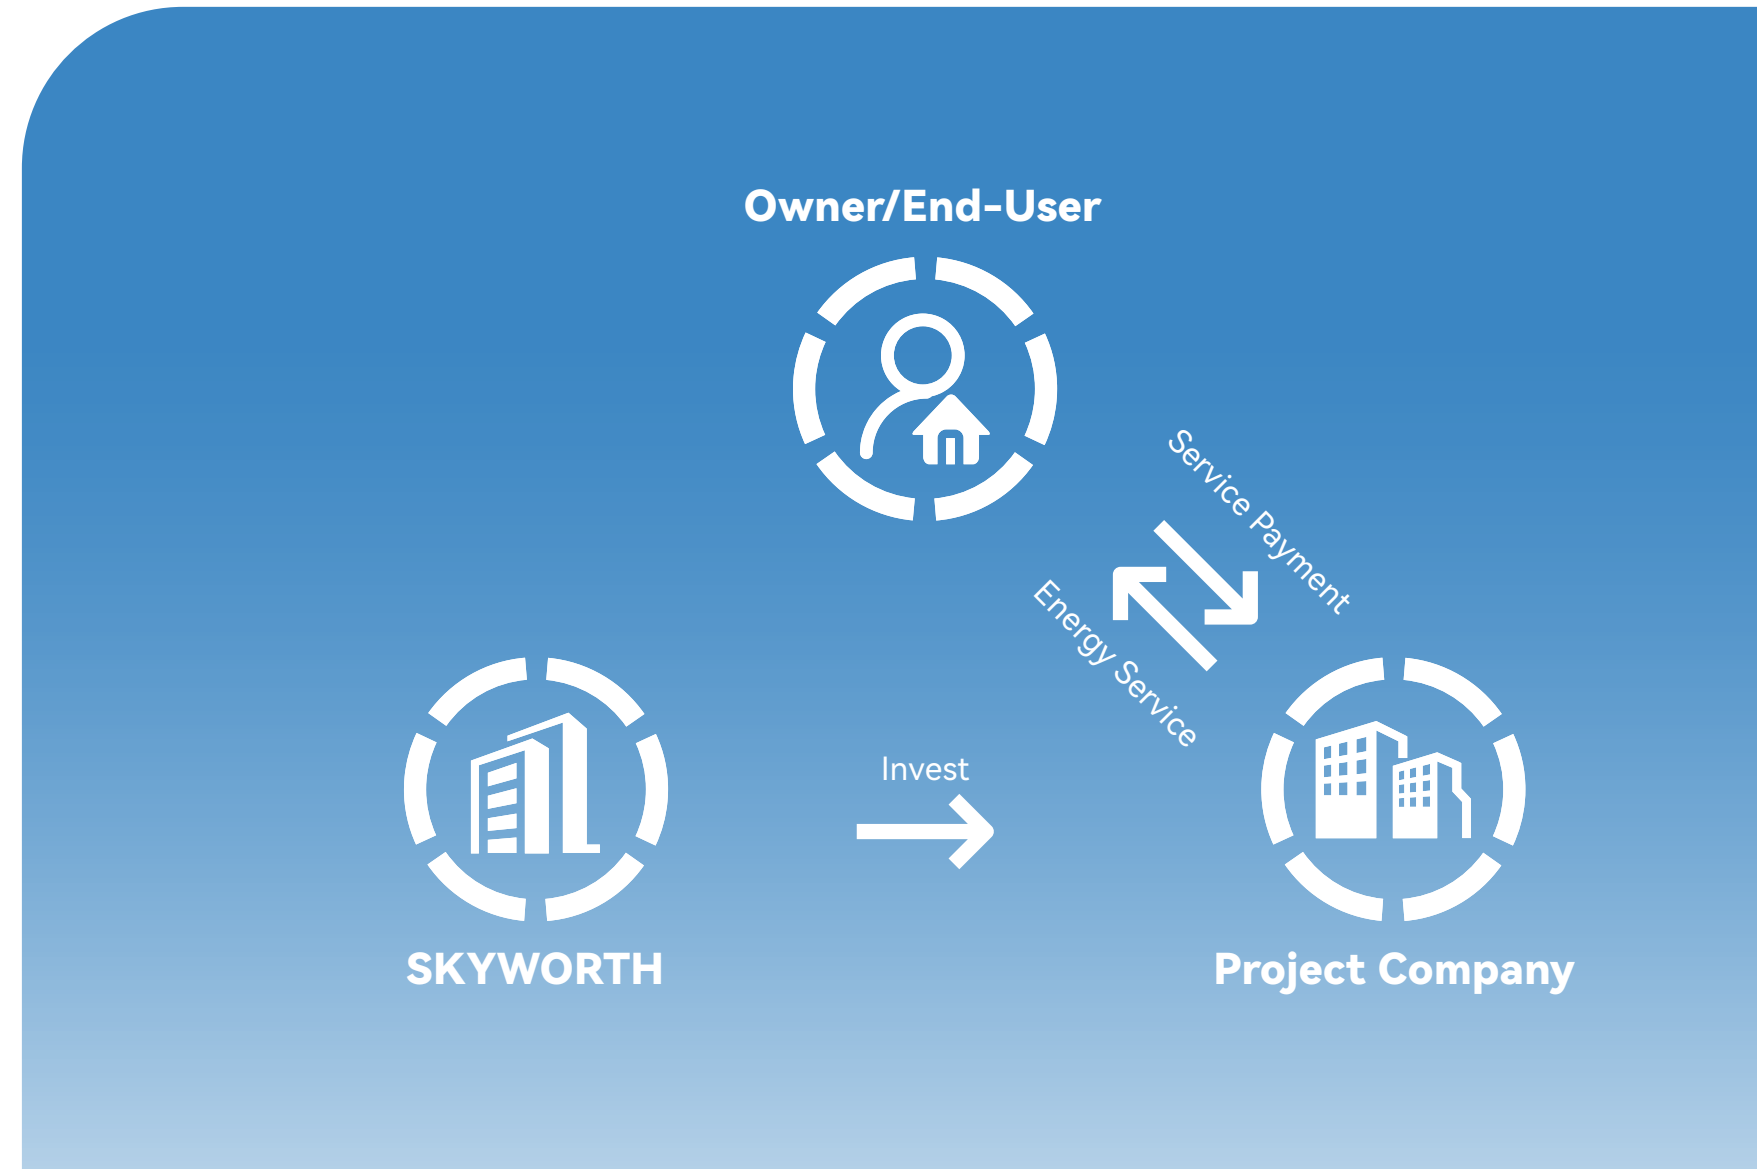

Focus on local project development to secure
channel or intermediary revenue

Provide EPC construction services to generate
construction revenue

► SKYWORTH

Project investment, holding
high-quality assets

PPA: SKYWORTH invested, user pays for the energy service at a discounted rate and saves
according to price difference

SKY-COOP

Joint Venture Model

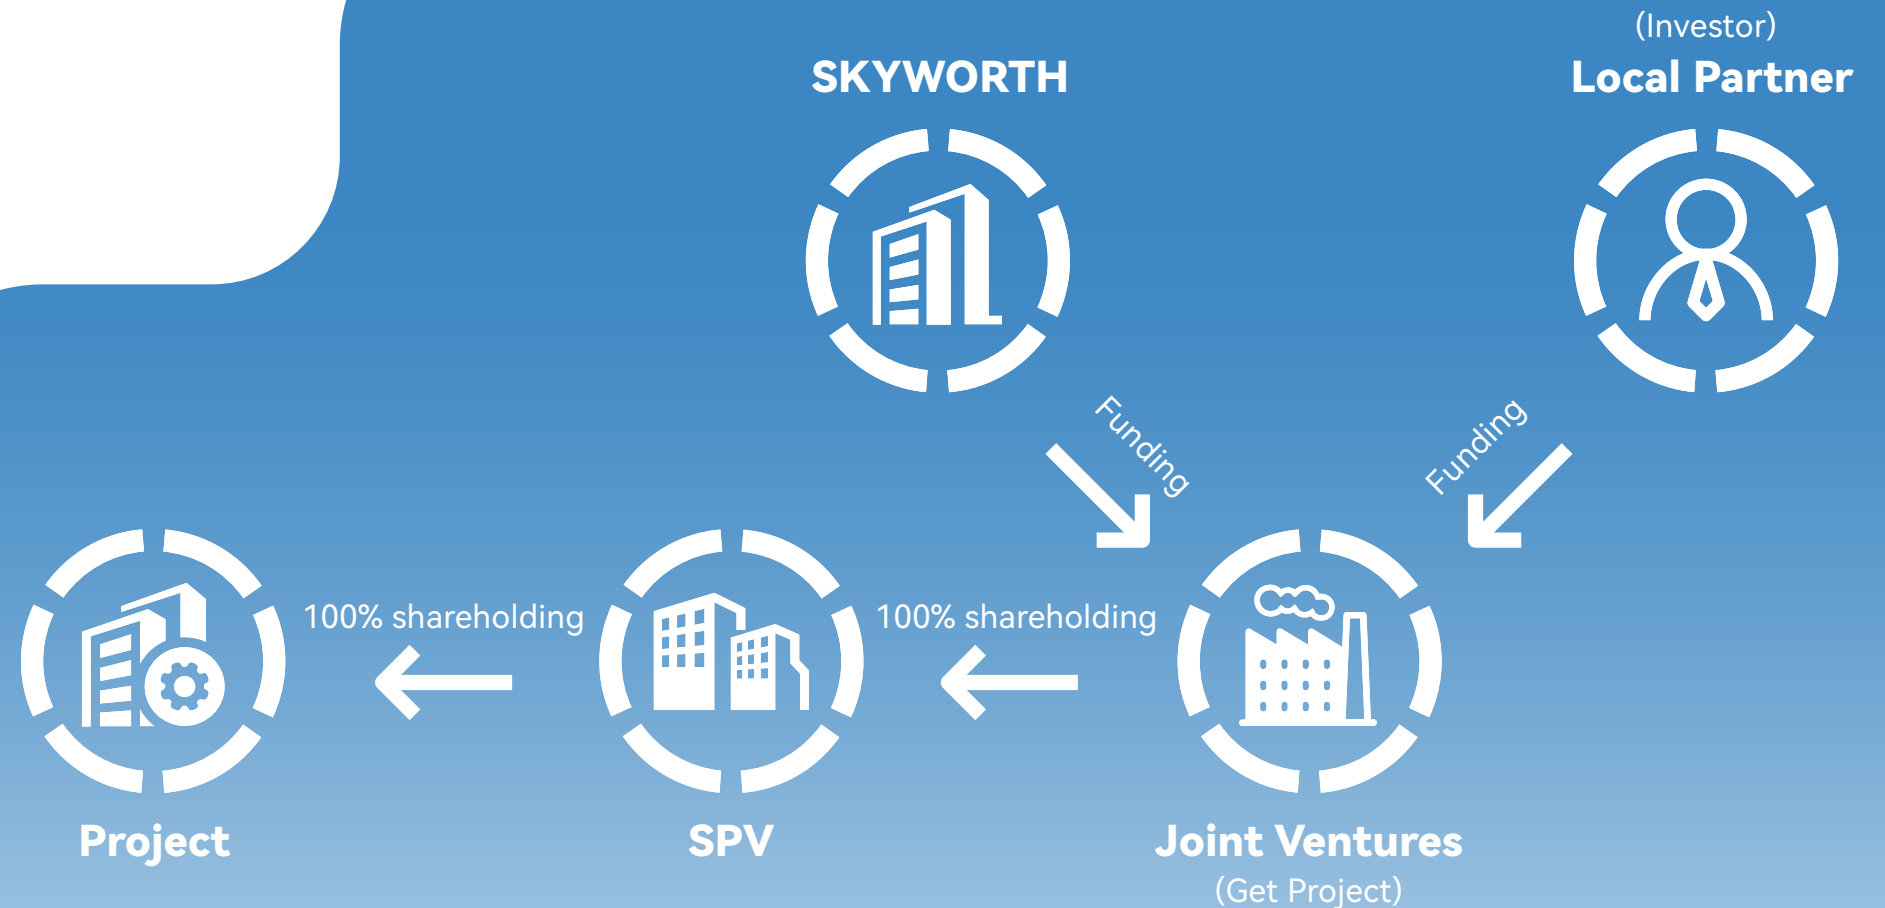

Enjoy discounted electricity rates at no extra cost.

► Local Partner

Co-invest with SKYWORTH to Secure and Develop Projects

► SKYWORTH

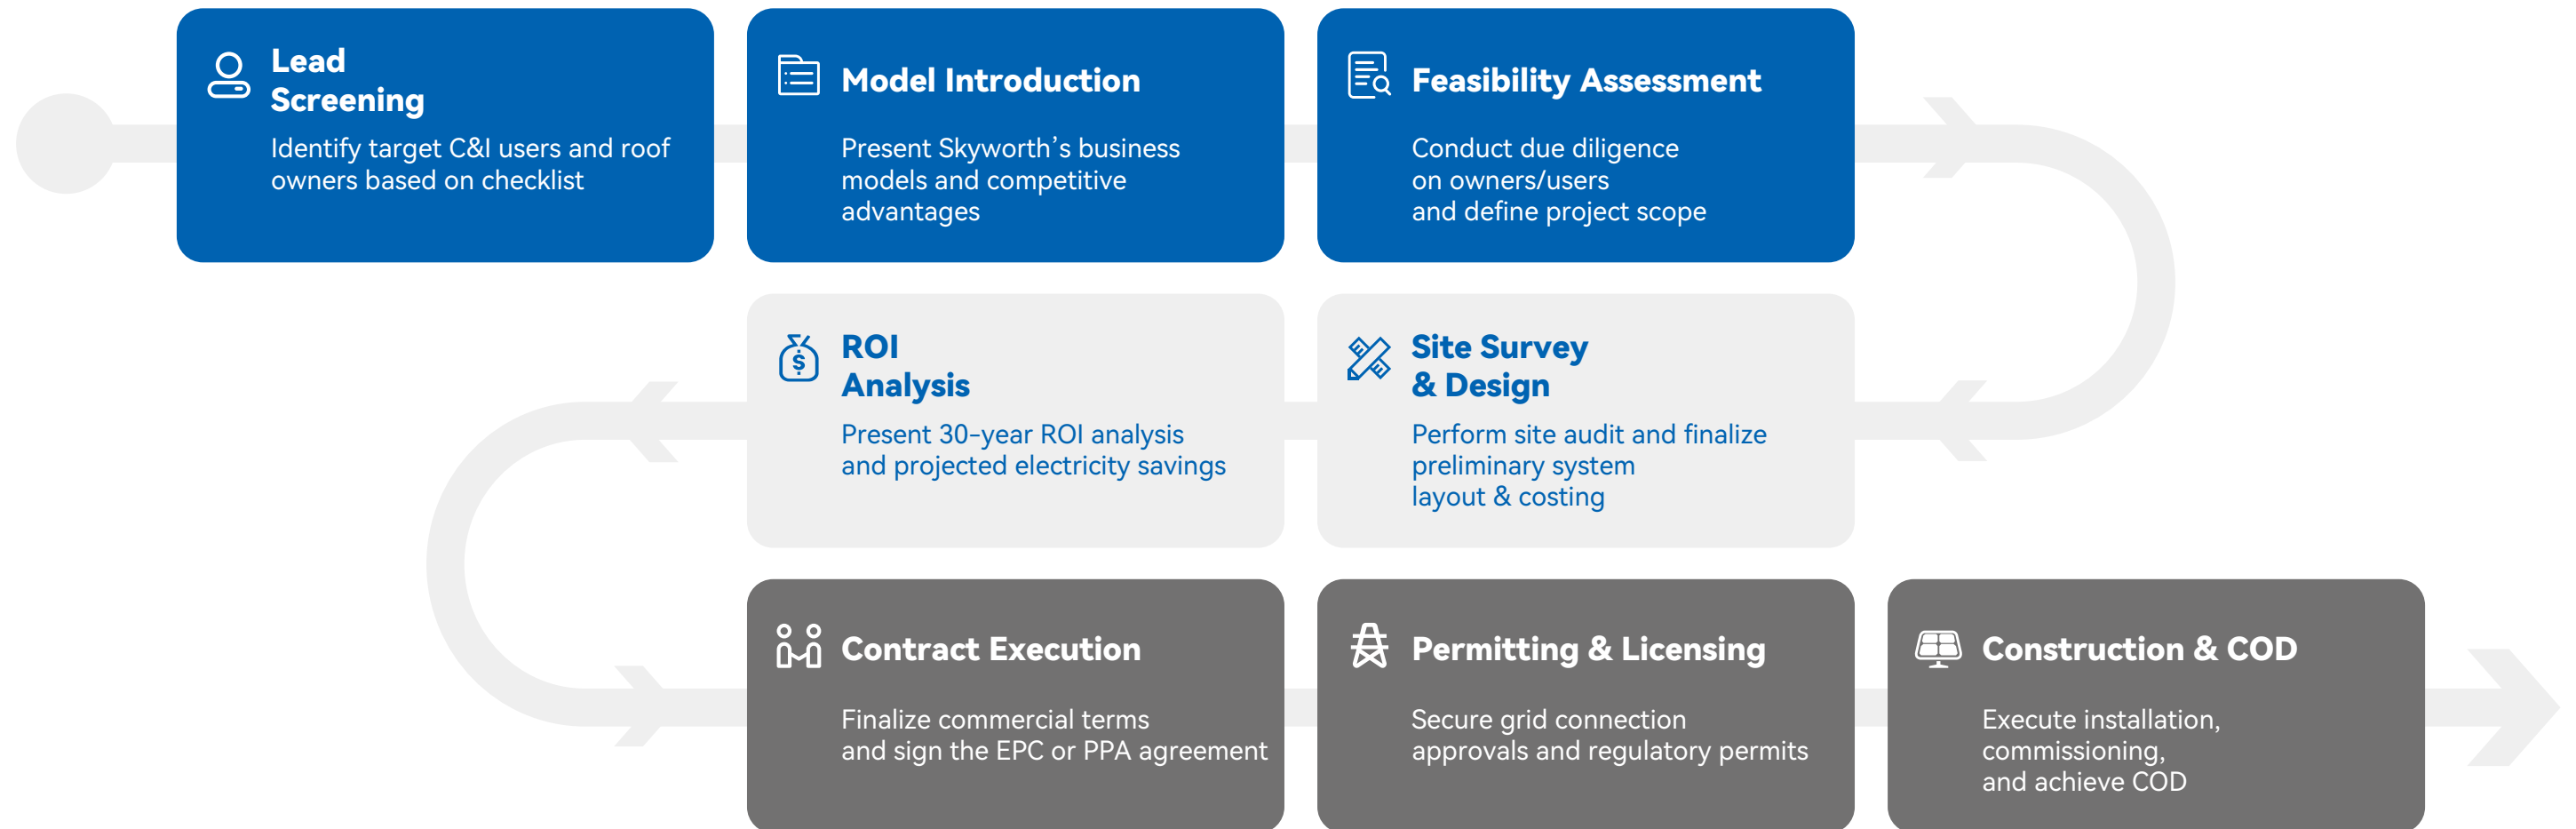

EPC
Financial Capability

* Availability of this model is limited to specific regions.
