

C&I SOLAR AND BATTERY SYSTEM SURVEY REPORT

SKYWORTH RENEWABLE ENERGY (THAILAND) CO., LTD.

2026.01

Proposed Solar System Design	
System Size	kW
Module Make/Model	
Number of Models	
Inverter Make/Model	
Number of Inverters	

Site Details	
Customer Name	
Mobile/Phone	
Project Name	
Company Name	
Address	
Items to Mark on Map	1. Site Entrance 2. Roof Access 3. Panel Location 4. Inverter location 5. Distribution boards 6. Transformers 7. Delivery Area 8. Site boundary
Property Ownership	☐ Private/Company Owned ☐ Leased
Company/Factory type	☐ Office Space ☐ Manufacturing (heavy) ☐ Manufacturing (light) ☐ Other _____
Number of Employees	
Pollution nearby? (e.g., dust or gases)	

Roof Installation	
Roof Type(s)	☐ Corrugated tin/colorbond ☐ Tile ☐ Kliplock/trimdeck ☐ Asbestos ☐ Concrete ☐ Other _____
Roof Height	m
Roof Slope	Degrees
Roof structural analysis	☐ YES ☐ NO
Roof plan	☐ YES ☐ NO
Structural drawings	☐ YES ☐ NO
Roof purlin type	
Roof purlin spacing	mm

Ground Installation	
Land Use Permit Obtained	☐ Yes ☐ No

Land Lease Term	☐ Permanent	☐ Leased, _____ Years
Land Type	☐ Commercial ☐ Farm Land	☐ Forest ☐ Other
Land Area	m ²	
Land Clearance Required	☐ Yes	☐ No
Topographic and Geographic test report	☐ Yes	☐ No
Soil Type	☐ Sand ☐ Rocky	☐ Other _____
Distance to Electrical Distribution Room	m	

Electricity Distribution Details			
Meter Number		Incoming voltage (kV)	
Annual electricity usage	kWh	Electricity Rate THB/kWh	_____ Peak _____ Off-peak
Electricity consumption data	☐ Hourly data over a year ☐ Daily data over a year ☐ Not available	Workdays per week	_____ days
		Workhours per day	_____ Hours
		Max Demand (daytime)	_____ kW

Electrical Information		
Transformer 1 Eg.Capacity: 800KVA Ratio: 10kV/0.4kV	Max demand	kVA
	Ratio	
	Allowable Connection Capacity	
Service Mains	Cable Size	mm2
	Distribution type	☐ Overhead ☐ Underground
Electricity Meter	Measured Voltage (or from electricity meter)	L1 _____ V L2 _____ V L3 _____ V
Consumer Mains	Cable Size	mm2
Main Distribution (for solar connection)	Location (indication on map)	
	Main Circuit Breaker (MCCB)	Rating(A): Model:
	Space for circuit breaker and energy meter	☐ YES ☐ NO
	Solar Point of Connection	☐ YES ☐ NO
Submain Mains	Cable Size	mm2
Sub-distribution board (if any)	Location	
	Main Circuit Breaker (MCCB)	Rating(A): Model:
	Space for circuit breaker and energy meter	☐ YES ☐ NO
	Solar Point of Connection	☐ YES ☐ NO
Generator (if any)	Is there a generator installed?	☐ YES ☐ NO
	Generator Rating	KVA
	Model Details	
	Connection Point	Building # Switchboard#
PFC Unit (if any)	Is there a PFC Unit installed?	☐ YES ☐ NO
	PFC Rating	
	Model Details	
	Connection Point	Building # Switchboard#

Photos and Documents Checklist

Company/Site information

- ☐ Company registration certification, MOA, List of Shareholders (Bor.Jor.5)
- ☐ Chanote Title Document or Land/property lease agreement
- ☐ Customer intent document or email for solar system, PPA contract term, self-consumption ratio
- ☐ Aerial photos of the site, specify distribution room location and locations aforementioned
- ☐ Master Site Plan
- ☐ Roof plan
- ☐ Roof load rating and distribution report
- ☐ Electrical plan and drawing

Layout and Simulation

- ☐ Panel Layout
- ☐ PVsyst Report
- ☐ Solar system financial analysis report

Electricity Consumption

- ☐ Electricity bill (at least one full year usage, monthly breakdown)
- ☐ Monthly electricity consumption dataset (showing the hourly or 15min electricity demand)

Roof (all roof sections, marked)

- ☐ Close view of the roof from inside and outside
- ☐ Photo showing the purlin spacing, purlin to rafter span
- ☐ Photo of the roof sheet

Electrical (all marked)

- ☐ Close and far view of the distribution board
- ☐ Photos of the electrical service room
- ☐ Photos of the electricity meter
- ☐ Photo of main switch and nameplates
- ☐ Photos of the service main and submain cable
- ☐ Photos of the transformer and nameplate
- ☐ Photos of the generator and nameplate (if any)
- ☐ Photos of the PFC unit and nameplate (if any)
